signed has been duly appointed and
qualified as administrator of the estate of
Peter J. Root, late of Highland county, Ohio,
deceased. JAMES C. WILSON,
November 17th, 1890.

A MONOPOLY.

Serious Charges Against Prof
Koch's Assistants.

The Lymph Monopolized by Them, and
They Will Not Reveal the Precious
Secret—They Are Making For-
tunes Every Day—Fifty Dol-
lars Offered For Tea Drops
of Lymph.

The four doctors in Berlin in whom
Koch has so far intrusted the exclusive
practice of his cure, are exploiting Koch
solely to enrich their own pockets, and
personally withholding information till
their personal nests are well feathered.
With the exception of Drs. Bergmann,
Cornet, Levy and Koehler, the physi-
cians in general practice in Berlin are
ignorant as to the details of the cure as
are the physicians of New York and Lon-
don. English doctors are there by hun-
dreds, and are permitted to see little and
learn less, and complain bitterly at the
scant courtesy shown them. Practically
all the inoculation in Berlin is per-
formed by Bergmann, Cornet and Levy.
Bergmann secured his preference
through the powerful influence of the
Government. Levy secured his because
he for years allowed Koch to use his
private hospital for experiments. Cornet
was allowed to co-operate because for
years he has been a close friend to
Koch, and a useful assistant in Koch's
special lines of scientific investigation.
So far as general practice is concerned
these men have the monopoly which is
making them rapidly rich. They have
hired private houses for hospitals,
charging patients from \$3 per day up-
ward for room and food, not including
medical attendance. Levy charges each
patient \$25 for each visit. Even at this
exorbitant price he is treating nearly
300 patients daily. The other three doc-
tors have an equal number of patients,
though some of them charge less. These
doctors are making hay while the sun
shines, working early and late. Con-
cerning the frantic efforts made
by visiting doctors to get the lymph I
can only give the following facts: In
small phial the lymph, undiluted, costs,
according to Koch's price, \$6. This
phial when diluted will inoculate 300
patients. One London physician of-
fered on Friday \$50 for ten
drops of undiluted lymph if de-
livered in time for him to catch the
express train for London that night.
Another English doctor, who has trans-
lated several of Koch's lectures for
British publication, has been there wait-
ing in vain two weeks trying to secure
a bottle of the fluid, though he offered \$25
or a \$6 phial.

KOCH'S CURE.
The Process of the Lymph's Preparation
Explained.
The Frank Courier, of Berlin, states
that the lymph used by Prof. Koch for
the cure of tuberculosis is prepared in an
incubating device, within a space that is
hermetically sealed and sterilized, and
thereby rendered free from fungus. The
interior of the air-tight space is divided
by an unglazed porcelain diaphragm in-
to an upper and lower section. In the
upper section is placed a salted meat
broth in a gelatinous state containing
colonies of the tubercle germ. This
mass gradually liquefies and the gela-
tine liquid drops slowly through the
porcelain plate into the lower section.
The liquid then contains all the secre-
tory products, but is free from all living
or dead germs or reproductive spores,
and is the lymph as used.

DANGER AT ROSEBUD.

Indians Retreat Before the Troops, But
Continue the Ghost Dances—An Upris-
ing Feared.
At army headquarters Chicago, Fri-
day night General Williams said: "I
have received a telegram from General
Brooks, who is commanding the forces
at Pine Ridge, saying a scheme for in-
ducing the disloyal Sioux to abandon
their tribe and join the loyalists is work-
ing very successfully, and he soon hopes
to have the hostile crowd entirely
broken up. The report from Lieuten-
ant Smith, who is in charge of the
forces of the Rosebud Agency, however,
is not so encouraging. He telegraphs
that when the forces under his com-
mand moved near the Indian camp
Friday they retreated back about fifteen
miles, where at night they were hold-
ing their ghost dances, and are working
up such a frenzy that some outbreaks may
occur before Saturday night. I was also
advised Friday that Sitting Bull has
been sending out requests to all Sioux
Indians, even in Canada, the Indian
Territory and as far west as Wyoming,
to join his forces. He is assisted in his
work by a large number of his tribe,
who have been educated in the East. If
the Indians care to do so, they can do a
great deal of damage before they can be
checked. Of course, their career would
be short, but amends would never be
made for the property or lives of settlers
they might destroy."

Dr. Koch Begins on Scarlet Fever.
Buildings in the Moabit suburb of Ber-
lin have been temporarily allotted to
Prof. Koch by the municipal authori-
ties for the purpose of assisting him in
proceeding with his experiments in the
direction of discovering a cure for in-
fectious diseases, such as scarlet fever,
measles, diphtheria and typhus fever.
The professor will also pursue his in-
vestigations into the nature and treat-
ment of cancer in this building. It will
be possible to accommodate 150 patients
in the temporary hospital. Dr. Koch
considers that his labors in connection
with tuberculosis are completed.

Hennessey's Assassins Indicted.
At New Orleans, the grand jury re-
ported finding true bills against the
seventeen men under arrest charged
with the murder of Chief of Police
David C. Hennessey, October 15, for
murder and accessory thereto. It is ex-
pected the trial will be fixed at an early
date.

Nebraska Governorship to Be Contested.
Governor-elect Boyd, of Nebraska,
Friday morning received official notice
that his election is to be contested.
Wholesale fraud all over the State is
charged by the Independents, the con-
test including the Republican official-
elect.

To Relieve the Financial Strress.
Secretary Windom is considering a
plan to increase the money circulation
by \$200,000,000, as an additional relief
to the financial stress.

New Orleans Postal Revenue Reduced.
It is stated at the Post-office Depart-
ment that since the passage of the anti-
lottery law there has been a reduction
in the revenues of the New Orleans
post-office of about one-third, and in
consequence the clerical force of the of-
fice has been reduced by nine men,
representing \$6,300 in salaries.

Physician Convicted of Forgery.
Dr. J. W. Conway, of Utica, Minn.,
was convicted in the Federal Court of
forgery in a pension case, and sentenced
to two years imprisonment in the peni-
tentiary at Detroit, Mich.

GAVE HER FLESH

To Save a Young Sister's Soul—A Youth-
ful Heroine's Sacrifice.
One of the most remarkable surgical
operations in history, and at the same
time a great act of heroic self-sacrifice,
was seen Thursday afternoon at Grace
Hospital, Detroit. Last Saturday Ma-
tilda Oresch, a ten-year-old girl, had her
entire scalp and left ear wrenched off by
her hair getting caught in a shaft.
Attempts to place the scalp back
and make it grow were futile
and they tried a new method. The
wound was so large that it would re-
quire a tremendous graft to save the
child. The little one's sister Emma,
twelve years old, who knew what was
wanted, offered to spare her skin for the
purpose. The doctors decided that to cut
the flesh off and put it on would not do,
the only way being to make the flesh
live on the one from whom it was taken.
They put both girls under the influence
of chloroform, and then cut a piece of
flesh eight inches long and five inches
wide from Emma's side and breast. That
is, they cut all but one side of it. The
loose end was then stitched to the flesh
on Matilda's head, and the two little
ones bound together so that they could
not pull apart. Heroic little Emma will
be tied to her sister by these bandages
four days, in which time the doctors ex-
pect the flesh to knit to Matilda's
head. Late Thursday night both little
ones were conscious and Emma was
evidently suffering much pain, but she
said, heroically, that she did not care
if it only saved her sister. It is the
first case on record where a graft of this
size has been made, and the whole med-
ical fraternity is watching the case with
great interest.

KOCH'S CURE.

The Process of the Lymph's Preparation
Explained.
The Frank Courier, of Berlin, states
that the lymph used by Prof. Koch for
the cure of tuberculosis is prepared in an
incubating device, within a space that is
hermetically sealed and sterilized, and
thereby rendered free from fungus. The
interior of the air-tight space is divided
by an unglazed porcelain diaphragm in-
to an upper and lower section. In the
upper section is placed a salted meat
broth in a gelatinous state containing
colonies of the tubercle germ. This
mass gradually liquefies and the gela-
tine liquid drops slowly through the
porcelain plate into the lower section.
The liquid then contains all the secre-
tory products, but is free from all living
or dead germs or reproductive spores,
and is the lymph as used.

Rev. McGlynn Recants.
Rev. Dr. McGlynn is soon to be rein-
stated as a priest of the Church of Rome.
This is learned upon good ecclesiastical
authority. Bishop Moore, of Augus-
tine Fla., has been working in Dr. Mc-
Glynn's behalf constantly. His efforts
have at last been so far successful that
Dr. McGlynn's case will soon be recon-
sidered at Rome. Whether he repudiates
the George doctrine in so many words
and openly or not his reinstatement in
the Church will be equivalent to a re-
cantation of those doctrines, inasmuch
as they have been declared heretical by
the Church since McGlynn's excommuni-
cation.

Still Practicing the Ghost Dance.
General Brooks and his command
reached Pine Ridge Agency Thursday
morning. Two troops of cavalry that
have been patrolling the north side of
the reservation all summer joined the
command Friday. The Pine Ridge In-
dians are greatly excited and continue
their dancing. General Brooks is in-
formed that bands of Indians are en-
route from Rosebud Agency to join
those at Pine Ridge. There is no truth
in the report that sixty Sioux Indians
were killed Wednesday in a fractional
fight.

Rev. Pettit Goes Up for Life.
At Crawfordsville, Ind., when court
convened at 9 o'clock Thursday morning
the jury in the case of W. F. Pettit,
charged with poisoning his wife,
brought in a verdict of guilty, and fixed
his punishment at imprisonment for
life. The jury took only one ballot to
agree upon the prisoner's guilt and an-
other to decide upon the punishment.

Only Good in Mild Cases.
Berlin physicians are agreed that Dr.
Koch's tuberculous remedy proves ef-
fective only in the treatment of mild
cases of the disease. Three patients
treated by the Koch method are re-
ported dead. They were all in a critical
condition before they received the in-
jections.

Tennessee's Official Vote.
The official vote of Tennessee is as
follows, all but two counties having re-
ported officially: Buchanan, 114,009;
Baxter, 74,398; Kelley, 10,855. Buchan-
an's plurality over Baxter, 40,211; ma-
jority over both 29,356; total vote, 199,-
562.

Easier Feeling at Mandan.
An easier feeling prevails at Mandan,
N. D., and settlers are returning to their
homes. A Sioux teamster Thursday re-
ported the Sioux waiting for supplies
at Fort Yates, and thinks there will be
no immediate trouble.

Fastest Gunboat in the Navy.
The new cruiser Concord, develops a
speed of 17.7 knots an hour, proving
herself the fastest gunboat in the navy.

Good Price For a Horse.
At the sale of Wm. Scott's horses, at
Erie, Pa., Bolero was bought by Phillip
Dwyer for \$85,000.

Sugar Crop Short.
It is stated that, owing to drought, the
yield of the present sugar crop in the
Province of Porto Principe is only 60 per
cent of that of last year.

Mrs. President Palmer.
Mrs. Potter Palmer was Thursday
unanimously elected president of the
Board of Lady Managers of the World's
Columbian Exposition.

Capital for the Air-Ship Company.
Twenty millions of capital has been
subscribed for the Air-Ship Company.
The company was organized by the
Carnegie Navigation Company.

DANGER NOT OVER.

The Indians Are Massing For an
Attack.

But Troops Are Hurrying Onward to
Check Them—General Miles'
Quiet Tactics.

A dispatch from Rosebud Agency, S.
Dak., dated November 19, says: When
the Indians on this and the Pine Ridge
Agency wake up to-morrow morning
they will find themselves surrounded by
the strongest body of United States
troops which has been mustered into
the West since the defeat of Geronimo.
It can be predicted that if some unfor-
tunate act on the part of the soldiers
does not add to the excitement of the
redskins the threatened uprising will
not occur. It is now plain General
Miles has not been idle during the past
week, for the troops now arriving come
from most of the posts in the West. Small
detachments have been moving in this
direction for the last three days, and the
whole has been so smoothly and quietly
done that not a word of warning has
reached the Indians. This great move-
ment will be known to history as the
masterpiece of strategic Indian warfare,
although not a gun has been fired during
the whole trouble. Doubtless the quick re-
sponse of the army will entirely quiet
the bucks now in such a fever over the
strange "Ghost Dance." It would be
impossible for the Indians to mount and
start out upon depredation, for morning
will find them completely in the posses-
sion of soldiery—so completely, in fact,
that not even madness will furnish
them an excuse to go upon the war-path.
General Miles says that he has every
confidence in the judgment, discretion
and energy of the department command-
ers and the troops under them. "In-
dians are scattered over several hundred
miles of territory, and they aggregate
in round numbers 6,000 warriors. The
troops which are scattered over this ex-
tensive territory number about 6,000,
and not more than 1,500 of this number
are effective mounted troops," concluded
the General.

KICKING.

Prof. Koch Censured For Not Dealing
Out More Lymph.

Thursday's number of the German
Medical Weekly contains an article
signed by Drs. Bergmann, Fraentzel and
Wm. Levy and Staff Surgeon
Koehl in which they declare that
after experiments in many
different cases they are prepared
to fully endorse Prof. Koch's
statement regarding his remedy.
Some of the evening papers
have published the article against
the illusions entertained by
many regarding the efficiency of Koch's
remedy. They also claim that the stock
of lymph is being exhausted. The
Tagblatt says that Koch's procedure so
far is open to severe criticism, because
he has only given his lymph to a few
co-laborers, whom he could thorough-
ly trust to follow his instructions, while
the great scientific establishments and
hospitals are excluded from the
benefits of the discovery. The Tag-
blatt considers that the dissatisfaction
among medical men and the many pa-
tients who are anxious to submit to the
treatment is quite justified, and declares
that the present arrangements must be
altered. The demand for the Koch
syringes is so great that the manufactur-
ers are unable to fill all their orders. Herr
Steiner, the celebrated tenor of Fried-
rich Wilhelm's Theater, who is suffering
from lupus of the face, was introduced
at a meeting of the Medical So-
ciety, twelve hours after receiving an
injection of the Koch fluid. As a re-
ward for his services in the interests of
medical science the Emperor will prob-
ably confer the title of nobility upon
Prof. Koch. The Professor states that
the Government must prepare the
lymph used in the cure of tuberculosis.

O'Brien, Dillon, Et Al. Guilty.
In the court at Clonmel Wednesday a
verdict of guilty was rendered against
Wm. O'Brien, John Dillon, Patrick
O'Brien, all of whom are members of
Parliament; John Cullinane, Thomas
Walsh, Patrick Mockler and Mr. Bolton,
who were indicted on charges of con-
spiring to induce the tenants on the
Smith-Barry estate not to pay rent.
William O'Brien and Dillon were each
sentenced to two terms of imprisonment
of six months each, but the sentences
are to run concurrently. Patrick
O'Brien and Cullinane were each sen-
tenced to six months imprisonment, and
Walsh, Mockler and Bolton to four
months each. All the sentences were
without labor.

Wyoming's U. S. Senators.
Francis E. Warren, of Cheyenne, Gov-
ernor of Wyoming, was Tuesday elected
to the U. S. Senate on the first ballot in
the Legislature. His colleague will be
ex-Delegate James M. Carey, also of
Cheyenne.

Injunction Against a Boycott.
A Sacramento judge has issued an in-
junction against a boycott instituted by
the Typographical Union of that city.

Big Trees in Washington.
Trees similar to the big trees of the
Yosemite, have been found in the new
State of Washington.

General Selingerstoff Assassinated.
General Selingerstoff, ex-chief of the
Russian police, died from the wound of
a poisoned bullet. He was shot by a
Nihilist in his apartment in Paris.

Sanchez Suicided.
Advices from Honduras say that Gen-
eral Sanchez was not shot after capture,
but committed suicide when nearly
captured by Bogran's forces.

Hospital for Consumptives.
W. K. Arkell, of New York, has agreed
to erect a hospital for consumptives if
the Koch treatment is shown to be a
success.

SIMMONS' LIVER REGULATOR
SYMPTOMS OF LIVER DISEASE:
Loss of appetite; bad breath; bad taste in
the mouth; tongue coated; pain under the
shoulder-blade; in the back or side—often
mistaken for rheumatism; sour stomach
with flatulency and water-brash; indiges-
tion; bowels lax and costive by turns;
headache, with dull, heavy sensation;
restlessness, with sensation of having lost
something undone which ought to have
been done; fullness after eating; bad
temper; blues; tired feeling; yellow ap-
pearance of skin and eyes; dizziness, etc.
Not all, but always some of these indi-
cations want action of the Liver, or

A Safe, Reliable Remedy
that can do no harm and has never been
known to fail to do good

Take Simmons' Liver Regulator

—AN EFFECTUAL SPECIFIC FOR—
Malaria, Bowel Complaints,
Dyspepsia, Sick Headache,
Constipation, Biliousness, use
Kidney Affections, Jaundice,
Mental Depression, Colic.

A PHYSICIAN'S OPINION.
"I have been practicing medicine for twenty
years and have never been able to get up a safe
compound that would, like Simmons' Liver
Regulator, promptly and effectively move the
Liver to action, and at the same time aid in the
weakening of the digestive and assimilative
powers of the system."
L. M. HINTON, M.D., Washington, Ark.

EPPS'S COCOA
BREAKFAST.

"By a thorough knowledge of the natural laws
which govern the operations of digestion and nu-
trition, and by a careful application of the fine
properties of well-selected Cocoa, Mr. Epps has
provided our breakfast tables with a delicately
flavored beverage which may save us many heavy
doctors' bills. It is by the judicious use of such ar-
ticles of diet that a constitution may be gradually
built up until strong enough to resist every tendency
to disease. Hundreds of subtle maladies are
floating around us ready to attack wherever there
is a weak point. We may escape many a fatal shot
if we take Epps's Cocoa with pure blood
and a properly nourished frame."—City Service
Gazette. Made simply with boiling water or milk.
Sold only in half pound tins, by grocers, labeled
thus: **JAMES EPPS & CO., Homoeopathic</**
